8  
Extension of Project OSI-18-52 to Include Supporting Research  
for Veterinary Medical Intelligence

1. The subject project proposes an extension of Project OSI-18-52, "Supporting Research for Intelligence on Biological Warfare," with the library, Department of Agriculture, to provide supporting research for veterinary medical intelligence. The extension of the project is proposed in the amount of \$8,000.00 for Fiscal Year 1952 and \$16,500.00 for Fiscal Year 1953 and 1954.

2. The estimated additional cost for the balance of the current fiscal year and for Fiscal Year 1953 to process the open literature for veterinary medical purposes is based on the following:

	FY 52	FY 53
2 Librarians (at \$5,300 per year each)	\$5,300	\$10,600
1 Translator (at \$4,400 per year)	2,200	4,400
Office Supplies and Equipment	<u>500</u>	<u>1,500</u>
Total Estimate	<u>\$8,000</u>	<u>\$16,500</u>

3. The above estimate for the current fiscal year is based on the period 1 January 1952 to 30 June 1952. Inasmuch as it doesn't appear that the project could be activated before 1 March 1952, it is recommended that the estimate be reduced accordingly to \$5,500.

4. Although provision was not made for the proposed extension of the subject project in the 1952 budget estimates for the Office of Scientific Intelligence, funds can be made available, \$5,500 from within the total funds available to the Agency. If approved, the use of vouchered funds is recommended.
